SOOTHING HANDS EQUINE MASSAGE SCHOOL

Let's face it, during the winter we all want to ride, but sometimes it's too cold. However we still want to spend time with our horses. If you come to the clinic and learn equine massage, you have another way to spend time with your horse while staying warm as well as doing something really useful and enjoyable for you and your horse. Your horse will love you for it!

Massage is the only thing that you can do for your horse that requires nothing of the horse. Massage is the "treat" that you can always give your horse. Why not give it a try? Don't you want to communicate with your horse in a different way?

Give you and your horse the gift of equine massage. See you at the clinic!
